

# Joinery

“The equipment here in the Building Barn is great. There's everything you need and as long as we've had the training for the specific tools and saws we can use whatever we need to get our project finished.”

TRADES ACADEMY STUDENT

Do you like making things? Have you thought about a career in joinery? This hands-on joinery programme could be your first step of a great career that can take you places.

Working in Te Pūkenga NMIT's Building Barn based in Nelson, you'll learn heaps of useful things like developing your skills in using hand and power tools; learn how to read plans; create drawings for your projects and to gain insight into joinery manufacture.

There will be a chance to design and build furniture while gaining a good knowledge of the health and safety requirements in the workplace.

From here you can go into employment, a trades course at Te Pūkenga NMIT or further study.

 [office@tradesacademy.ac.nz](mailto:office@tradesacademy.ac.nz)  
[tradesacademy.ac.nz](http://tradesacademy.ac.nz)

### On completion you will be able to :

- Calculate quantities and prepare an order, set out and construct timber furniture, and complete work operations.
- Demonstrate knowledge of, select, maintain, and use hand tools for BCATS projects.
- Identify, describe, select, maintain, and use portable power tools for the construction of BCATS projects.

Note: Some unit standards may change. Final information on the standards specific to your course will be available prior to starting your programme.

► For more information on what you will learn and the credits you can achieve in this programme, go to the Trades Academy website and follow the course information links.
