

Creative Design for Hair & Make-up (Level 3)

Curriculum Goals:

To enable students to develop salon skills for both hairdressing and beauty therapy services to prepare them for further study and/or employment in either of these fields, and to make these decisions with a sound understanding of the skills and attributes needed to work in any salon.

This course is practical and experiential, with a strong focus on creative design in a salon and project environment. Students will develop and practice their skills in NMIT's hairdressing training salon and the beauty training clinic, working with clients where appropriate, and taking part in a showcase event.

Delivery:

This course is delivered over one day per week. It is designed to extend skills gained in the Hairdressing Level 2 or Beauty Therapy Level 2 Trades Academy programmes so it is recommended that students complete either of these courses first. It may also complement a Gateway or other school-based programme designed to prepare students for industry.
