TOP OF THE SOUTH TRADES ACADEMY

MAKE THE MOST OF SCHOOL

Choose a trade today!

The **Top of the South Trades Academy** is opening doors for students like you, who want to stay at school but are ready to start training for a real job.

If you're accepted into the Trades Academy, you'll be able to stay at school completing NCEA, while at the same time working towards a National Certificate in a trade of your choice.

Trades Academy training is practical and hands-on and there are lots of options to choose from. You can learn anything from mechanical engineering and aquaculture, to hairdressing and hospitality. You'll learn heaps of useful skills to help you go on to further study or get a job right out of school. **The best part is, it's free!**

Training is either one day a week at one of the Nelson Marlborough Institute of Technology's (NMIT) campuses in Richmond, Nelson and Blenheim; or in residential blocks at Whenua Iti Outdoors. We also have training located at the RNZAF Base Woodbourne.

What are you waiting for? Apply now and get going places.

START YOUR
TRAINING NOW

HOW TO apply...

It's easy to apply for the Top of the South Trades Academy.

Just download an application form at www.tradesacademy.ac.nz, talk with your school's Trades Academy coordinator - and we'll take it from there.

The Trades Academy has no fees and is open to year 11, 12 and 13 students, who have or are working towards gaining credits in numeracy and literacy. We're looking for students who are focused, committed to learning and keen to work towards a career in their chosen vocational pathway.

If this sounds like you, contact us today.

tradesacademy@gmail.com
www.tradesacademy.ac.nz

VOCATIONAL Pathways

The **Vocational Pathways** have been developed through a partnership between government agencies, the industry training sector, secondary and tertiary educators, and industry and employer representatives.

Achieving credits towards Vocational Pathways means students are developing foundation skills and knowledge in areas that employers value. Students can work towards the Vocational Pathways by gaining credits from the achievement standards and unit standards recommended by the sectors. The Vocational Pathways will also make it easier for prospective employers and others to see when students have the strengths, abilities and qualities they are looking for.

Vocational Pathways

BUILDING & Construction

This hands-on building and construction programme is the first rung on the ladder of a great career that can really take you places.

Working in NMIT's carpentry barn and enclosed construction yard, you'll learn heaps of useful skills like making pre-framed walls, installing windows, hanging doors and much more.

From here you can go into employment, a trades course at NMIT or further study at university. One day you could end up running your own company!

Starts: February 2017
Time: 9am to 2.45pm one day a week
Location: NMIT Nelson

LUKA STACKHOUSE

BUILDING & CONSTRUCTION YEAR 1 *Garin College*

Luka enrolled in the Trades Building programme to learn more about the industry and gain practical skills. "Trades Academy is a great way of finding out about an industry before you commit to it. I like getting hands-on, doing practical projects and building things. At Trades we get to use drop saws and other equipment that we can't use at school.

The tutors have also been really helpful – "They know what they're doing and you can always ask questions if you're not sure about something."

Luka isn't sure yet what he wants to do when he leaves school. He's considering options in either the building or ski industry. Either way, he believes that the skills and practical experience he's gaining at Trades Academy will be extremely helpful for his future. "I'd definitely recommend Trades Academy to other students. It's a great opportunity to try your hand at something new and learn new skills. And you don't have to pay for it."

PATHWAYS + OPPORTUNITIES

TRADES ACADEMY TRAINING

Industry Employment/
Apprenticeships and ITO Training

Tertiary Pre-Employment Training at NMIT
L4 in Carpentry

UNIVERSITY STUDIES:

- › Civil Engineering
- › Architecture
- › Engineering
- › Project Management
- › Resource Management
- › Building Science

Carpenter
Joiner

Builder

Retail Shop Fit-Out

Quantity Estimator

Concrete Contractor

Construction Site Foreman

Residential Building

Building Supplies Sales

Commercial Building

Landscape Construction

Designer and Draughtsperson

Construction Worker

Labourer/Hammer Hand

Construction Project Manager

CIVIL Infrastructure

Be part of an innovative collaboration between Connexis (Industry Training Organisation) and the Trades Academy that gives you an introduction to the civil infrastructure industry in a very practical way. You will spend time working alongside employers, gaining experience and working towards industry credits.

The NZ Certificate in Infrastructure Works Level 2 is the first step in your career that will give you the skills and knowledge to work safely onsite and with others, under direct supervision. This could provide a springboard to further training and positions of responsibility, e.g equipment operator, foreman and manager positions.

Starts: February 2017
Time: 9am to 2.45pm one day a week
Location: Nayland College or Queen Charlotte College

TRADES ACADEMY TRAINING

ITO Training and Industry Employment/
Cadetships/Apprenticeships

NZ Diploma in Engineering - Civil,
Level 6, NMIT

UNIVERSITY STUDIES:
› Bachelor of Engineering

CIVIL ENGINEERING INCLUDES BUILDING STRUCTURES IN:

Roading, sewage, bridges, dams, transport, and gas and water supply systems

Government and Local Government

Private Construction Company

Marine Structural Engineer

Project Construction Engineer

Infrastructure and Utility Organisations

Surveying

Draughtsperson

Technician

Private Consultant

IRWIN BUREKA

CIVIL INFRASTRUCTURE
(MARLBOROUGH)
Queen Charlotte College

Irwin appreciates the opportunity to be part of the new Infrastructure programme. "This is a really good opportunity and I'd recommend it to anyone interested in civil engineering." Irwin really likes the tutor "Dave is full of energy and often tells jokes. He's friendly and I'm learning lots of new things."

A highlight for Irwin has been putting the theory learnt in the classroom into practice and visiting civil construction sites in the district. "At one site we watched the laying of drainage pipes, which was really interesting."

JOSH HUTTON

CIVIL INFRASTRUCTURE
Waimea College

Josh plans to train as a civil engineer when he leaves school, and thinks the Civil Infrastructure programme is a great introduction to the industry. Josh says that gaining practical experience is really useful – "If you are practically minded, this course is a perfect opportunity to learn new skills. So far we have learnt about health and safety regulations and we've also been shown how to set up a construction site."

Josh has enjoyed the opportunity to visit different work sites to see what actually happens on a day-to-day basis.

MECHANICAL Engineering

If you're into making and fixing things and like working with your hands, then chances are you'll make a really good mechanical engineer.

This challenging programme will see you working in NMIT's Mechanical Engineering workshops learning how to machine, weld and fabricate with metal. During the year you'll design, build and race a grass kart with your team mates. Training is pretty much hands-on – so be prepared to get stuck in.

Starts: February 2017
Time: 9am to 2.45pm one day a week
Location: NMIT Nelson

PATHWAYS + OPPORTUNITIES

TRADES ACADEMY TRAINING

Civil Engineer

Heating, Ventilation, Air Conditioning

Maintenance and Diagnostics Engineer

Machinist and Toolmaker

Refrigeration Engineer

CAD Operator

Mechanical Engineer

Marine Engineer

Sheet Metal Fabricator

Architect or Civil Drafter

Hydraulics Engineer

DANIEL BATCHELOR

MECHANICAL ENGINEERING (YEAR 2) *Nayland College*

Daniel is in the second year of the Trades Academy Mechanical Engineering programme and says that the course is even more skills focused this year. Daniel's working on a project to design and build a grass kart. "I'm definitely improving and developing my practical skills. I'm learning not to rush the project and to plan it out better before I start."

Next year Daniel wants to return to NMIT to complete the fulltime Level 3 Engineering programme before taking up an apprenticeship.

TYLER SOWMAN

MECHANICAL ENGINEERING (YEAR 1) *Waiamea College*

Tyler enjoys working in the Engineering workshop and says that the tutors are really helpful and easy to approach. "I want to work on a farm in the future and the skills I'm learning now, like welding, will be really helpful. I also enjoy being at NMIT and having access to the cafeteria and games room at lunchtime."

"Trades is a great opportunity – you learn more skills here in a shorter time than at school. You can make mistakes and then you're helped to fix them."

AUTOMOTIVE Engineering

If you enjoy working on cars and problem-solving then Automotive Engineering could be just the career for you.

This programme will give you a real taste for the industry. You'll spend your time getting your hands dirty in NMIT's automotive workshops learning how cars and engines work and finding out about fault-finding and what automotive engineers do in their jobs.

Give it a go and see if Automotive Engineering is for you!

Starts: February 2017
Time: 9am to 2.45pm one day a week
Location: NMIT Marlborough and Nelson

PATHWAYS + OPPORTUNITIES

TRADES ACADEMY TRAINING

Industry Employment/
Apprenticeships and ITO Training

Tertiary Pre-Employment Training at
NMIT in L3 Automotive Engineering

- › Engineering
- › Energy and Fuel Research

Small Engine Mechanic Vehicle Groomer or Sales Automotive Dismantler
Automotive Electrician Motorcycle Mechanic Brake Service Technician
Powerboat Technician Fuel Injector Engineer Wheel Alignment Technician
Hydraulic Engineer Marine Engineer
Automotive Engineering (light, heavy, diesel, marine, road)

CHRIS SHALLCRASS

AUTOMOTIVE ENGINEERING (MARL) *Marlborough Boys College*

Chris enjoys both the theory and practical parts of the Automotive programme. Chris's goal is to become a qualified mechanic: "I have an after-school job in an automotive workshop and I'm hoping to get an automotive apprenticeship in the future."

"The tutors at Trades are great. We get plenty of chances to ask questions and we can work in our own time." One of the advantages of Trades is learning alongside other students with the same interests. "The work is not as difficult as it would be if I was working on my own."

MATT LIMMER

AUTOMOTIVE ENGINEERING *Waimea College*

The highlights of the programme for Matt are the practical activities in the workshop and the great tutors. "I enjoy being at NMIT. The facilities are really modern and you get to work on real cars, using the proper tools and equipment."

Matt's goal is to become a Diesel Mechanic. He intends to go back to school for Year 13 and then join the Navy and complete a diesel apprenticeship. He says that enrolling in the Trades Automotive programme has been a good way of finding out if this pathway is for him and he would definitely recommend it to other school students.

* Graduate PROFILE

RYAN GERRISH

AUTOMOTIVE — GRADUATE 2014
Nayland College

Ryan completed the Trades Academy Automotive programme in 2014, while a student at Nayland College. He then enrolled in the fulltime Automotive Pre-Trades course at NMIT, before gaining an apprenticeship at Houston Motors at the beginning of 2016.

Ryan has always been interested in cars and after taking Automotive as one of his school subjects he decided that Trades Academy was the next step towards achieving his goal of becoming a qualified Mechanic. Ryan says that doing Trades Academy gave him a really good insight into the industry and enabled him to further develop his skills.

He particularly enjoyed being able to spend the whole day at Trades every Friday. "Having a full day made it easier to learn; we were able to cover so much more. Enrolling for a fulltime NMIT course is quite expensive so doing Trades first meant that I got a really good idea of what to expect."

For Ryan, the tutors at Trades Academy made a real difference: "I got along with Pete, the tutor, really well. He's such a helpful teacher. He'll see you through and support you all the way."

Ryan plans to finish his apprenticeship over the next couple of years, get his trade under his belt and then may look at work overseas. He's really grateful for the opportunities that Trades Academy, NMIT and Houston Motors have given him and would definitely recommend the Top of the South Trades Academy to other students.

AVIATION Engineering

Take a front seat in the world of aviation on this exciting programme based in the NMIT Aeronautical Engineering workshop at the Marlborough Woodbourne Airbase.

Learn about the principles of aircraft flight, construction and maintenance practices. Students will be introduced to aircraft engineering workshop requirements and basic assembly of aircraft structural components. This is the perfect training ground for people who learn by doing.

This programme has been redeveloped for 2017.

Starts: February 2017
Time: 9am to 2.45pm one day a week (+ block courses)
Location: NMIT Woodbourne Campus Marlborough

The Top of the South is the aquaculture capital of New Zealand. About 70 per cent of aquaculture production is based here.

It's also a major centre for fishing and maritime activities. Get a foot in the door of these exciting growth industries with this Top of the South Trades Academy programme.

Learn about fish farming, get out in Nelson's harbour and gain valuable maritime safety skills and find out about fire fighting and first aid. There'll be field trips as well to fishing companies and aquaculture farms.

Starts: February 2017
Time: 9am to 2.45pm one day a week
Location: NMIT Nelson

HANNAH APPLETON

AQUACULTURE AND MARITIME Motueka High School

Hannah enrolled in the Aquaculture & Maritime programme as her first step to achieving her long term goal of becoming a marine scientist. Hannah has always had an interest in environmental and marine issues and plans to study in this area once she leaves school. At Trades she is enjoying the opportunity to gain practical hands-on skills.

"I really love that we get to learn about salmon farming in a practical way that we wouldn't have the opportunity to do at school. Coming from a little town like Motueka, it's great to be here at NMIT – it's very high-tech with all the laboratory facilities."

Hannah says that the tutors are really friendly and approachable. They are also very knowledgeable about the industry and career opportunities within the Aquaculture and Maritime area. Hannah believes that what she is learning at Trades now will help her make a decision about future employment and study.

PRIMARY Industries

Get out of the classroom and into the outdoors as part of this all-action entry into working in the Primary Industries sector.

Get a taste of our region's main primary industries of agriculture, forestry, horticulture and viticulture. Learn how to ride quad bikes and use chainsaws safely. Go on heaps of field trips to orchards, farms, commercial forests and vineyards to find out what makes this industry tick.

This is a great place to start if you're after a hands-on job in the outdoors.

Starts: February 2017
Time: 9am to 2.45pm one day a week
Location: NMIT Marlborough and Richmond

TRADES ACADEMY TRAINING

- Industry Employment
Apprenticeships and ITO Training
- Tertiary studies at NMIT in Horticulture,
Viticulture and Wine, Conservation
- Telford (a division of Lincoln University),
South Otago
- University Studies at Lincoln or Massey

Dairy Farm Worker
Forestry Worker/Manager

Health and Safety Officer
Agriculture Contractor
Conservation Ranger
Viticulture Worker/Manager

Shepherd
Share Milker
Winemaker
Sheep Farmer
Spray Contractor
Saw Doctor

Fencer
Horticulturist
Chainsaw Operator
Farm Manager
Livestock Agent
Herd Manager

SAM GLASSON

PRIMARY INDUSTRIES *Nelson College*

Sam enrolled in the Trades Primary Industries programme because he's looking at a career in farming and he thought that the practical skills would be really beneficial. After he finishes school he plans to work on a farm for a while and then go to Telford to study agriculture.

For Sam, learning to use ATV (quad) bikes and chainsaws has been a real highlight. "Trades is a good opportunity to get out and do something practical. I go hunting quite a lot and really like being in the outdoors. The practical skills we're learning will be really helpful for what I want to do in the future."

KIMBERLY FEARN

PRIMARY INDUSTRIES (MARI) *Marlborough Girls College*

Kimberley enjoys the small class size at Trades and the fact that you have to take responsibility for your own learning. She says that the Tutor is always willing to help and the small class size means you get to know other students really well.

"The course is very practical and you learn this first. It makes doing the theory work later much easier. My highlight has been riding the ATVs and learning how to do this safely."

Kimberley's goal is to work on a dairy farm when she leaves school, raising calves.

SPORT & Exercise

If you are into sport and exercise and want to know more about it then chances are this programme is right for you.

Find out how your body reacts to training and what things you should be including in your training for your sport and fitness. Have a look at some of the common training tools and methods and what fitness they are good for. Get a feel for the other things you could go on to study to be able to work in the sport, exercise and fitness industry.

Take the opportunity to explore whether this is the area you want to move into while getting to know a bit about yourself and your training.

Starts: February 2017
Time: 9am to 2.45pm one day a week
Location: NMIT Nelson

NEAVE ELLIS

SPORT & EXERCISE

Te Aho o Te Kura Pounamu

The Trades Sport and Exercise programme really appealed to Neave, who plays representative hockey. "I thought the Trades programme would be a great way to learn about fitness and how it can be applied to what I do."

For Neave, the practical nature of the programme is a real highlight. "I really enjoy going to the gym every week. It's good to learn the theory of sport and exercise in the classroom and then apply it in the gym. I also like learning about fitness and healthy lifestyles and how different things can affect your training."

Neave would definitely recommend the Sport and Exercise Trades programme to other students. She says the tutors are friendly and supportive and want to help students get the most out of the programme as possible.

While Neave isn't sure what she'll do once she finishes school, she believes that having the opportunity to attend Trades has been really worthwhile.

PATHWAYS + OPPORTUNITIES

TRADES ACADEMY TRAINING

Tertiary pre-employment training that includes: Certificate in Fitness and Exercise Science, Diploma and AUT Degree in Applied Fitness at NMIT

UNIVERSITY STUDIES:

- › Health Sciences
- › Physical Education

Sports Trainer
Personal Trainer

Health Sector
Coach

Teaching
Business Owner

* Graduate PROFILE

TASH KRAMMER

HOSPITALITY — GRADUATE 2014
Waimea College

Tash was a Year 12 student at Waimea College when she enrolled in the Trades Academy Hospitality course. She has always enjoyed cooking and knew that cheffing was a career pathway she wanted to learn more about.

After completing the Trades Academy course Tash returned to NMIT and completed the fulltime Level 3 Certificate in Cookery. This year she is back at NMIT working towards her Level 4 Certificate in Culinary Arts.

The Trades Hospitality programme provided Tash with the skills, confidence and experience to go on into fulltime study. "I've always enjoyed cooking. School wasn't really my thing so it was great to be able to come to Trades Academy and be able to focus on the one subject I was really interested in." Tash says the tutors at Trades Academy and NMIT have been great. "Bill and Daniel are really thorough and you can ask any questions. They have all this knowledge and experience that they love to pass on to the students."

When she leaves NMIT at the end of this year, Tash plans to work as a chef, developing her practical skills and gaining industry experience. Her long term goal is to have her own fine-dining restaurant. Tash's advice to students is: "Research what you need to get into the course of study or work area you're interested and make the most of any opportunities at school, like Trades Academy and Gateway – try something different."

HOSPITALITY

Hospitality is a career full of opportunities.

You could start out serving coffees, become a chef or restaurant manager and one day even end up running your own business. This practical introduction to the industry will see you working in NMIT's state-of-the-art kitchen and restaurant training facility where you'll be preparing, cooking and serving some of our region's finest produce.

Starts: February 2017
Time: 9am to 2.45pm one day a week
Location: NMIT Nelson

CHLOE CARRINGTON

HOSPITALITY Wairua College

Chloe's goal is to train as a chef and work in restaurants around the world. She is enjoying the experience of Trades and having the opportunity to work in a real commercial kitchen, creating meals just as you would in a restaurant.

"This course teaches me the skills I need. In Trades you get to find out about the pressures of working in a kitchen and seeing if you can cope with that. Because we're here for a whole day we can prepare food that takes a bit longer to cook, without the stress of limited time. We've cooked all sorts of different things – one of my favourites was making Italian bread.

"I'd recommend this course to anyone who wants to be a chef. It's a great experience and the tutor is always friendly and he never panics!"

PATHWAYS + OPPORTUNITIES

TRADES ACADEMY TRAINING

Industry Employment/Apprenticeships
and ITO Training

Tertiary Pre-Employment Training
at NMIT in Culinary Arts, Food and
Beverage Service

UNIVERSITY STUDIES:

- › Food Nutrition
- › Food Technology

Function Centres
Food and Beverage Manager
Cafés, Bars and Hotels*

BEAUTY

Take the first step into the exciting world of the beauty industry.

Working in a fully equipped training salon at NMIT, you will learn about:

- Skin health
- Customer service and retail
- Professional products
- Tinting
- Eyebrow shaping
- Hand, foot and nail care

This is a great opportunity to learn about a future career that will enable you to travel the world while working in the beauty, body and spa industry.

Starts: February 2017
Time: 9am to 2.45pm one day a week
Location: NMIT Nelson and Marlborough

RUBEN KRUEGER

BEAUTY Nayland College

Ruben has always had an interest in the beauty industry, and in particular make up artistry. "I really love learning about the history of beauty therapy and about make-up."

Ruben enjoys being at NMIT, meeting up with students from other schools and being treated as an adult. "You get to come to NMIT on a Friday, learn relevant industry skills in a new environment, without having to pay for it."

Ruben says that keeping up with his school work while he's at Trades is not too difficult, although he admits that being well organized definitely helps! In the future Ruben would like to study make up artistry at the Cut Above Beauty School in Auckland.

NICOLA NEWMAN

BEAUTY (MARLBOROUGH) Marlborough Girls College

Nicola chose to do Trades as she would like to work in either the Beauty or Hairdressing area in the future.

"The course is going really well – it's very hands-on and I learn better this way." A highlight of the course for Nicola was having a facial for the first time and then learning how to give other students a facial.

Nicola would recommend Trades to other students. "It's a very different learning environment to school."

HAIRDRESSING

Take the first step into the exciting world of the hair industry.

Working in a fully-equipped training salon at NMIT, you will learn to:

- Develop a range of elementary hairstyling skills
- Provide service and care to clients in a salon
- Understand how history and fashion trends influence hairstyling

This is a practical introduction to a career that never goes out of fashion!

Starts: February 2017
Time: 9am to 2.45pm one day a week
Location: NMIT Nelson and Marlborough

L4 Certificate in Advanced Professional
Hairdressing at NMIT

Trainee Hairdresser

Image Consultant

Self-Employed/Own Business

Film/Theatre/TV

Senior Hair Stylist

Colour Technician/Hair Colourist

Cruise Ships

Salon Receptionist

IZZIE HARPER

HAIRDRESSING Waimea College

For Izzie, taking part in the Trades Academy Hairdressing programme has really helped her make up her mind that this is the area she wants to work in, in the future. "I like the practical part of the course best and the theory is very beneficial. Next year I'd like to return to NMIT to complete the fulltime Hairdressing course."

In addition to Trades Academy, Izzie is also completing a Gateway programme at her school and doing work experience at a local hair salon one day a week. She says that the combination of Trades Academy and Gateway is great and she is grateful for the opportunity to do both.

DREW DODSON-COOK

HAIRDRESSING Nayland College

"This is a great course - I've met some cool people; the practical work is really fun and the book work is manageable. The tutor is great too."

Drew wants to work in the hairdressing industry in the future and says that the Trades programme is giving him lots of practical skills and is a good first step into the industry. He also enjoys the freedom he has when attending Trades Academy and appreciates the opportunity he's been given.

Drew is now considering his options for next year and would like to complete the fulltime Hairdressing course at NMIT.

ADVENTURE TOURISM Leadership

Some of the very best learning in life comes through challenging your personal boundaries and training to work well in difficult situations.

Get outdoors, get active and have fun while you learn in the Trades Academy Adventure Tourism Leadership programme.

Experience high ropes, low ropes, mountain biking, caving, sea kayaking, rock climbing and camping, and in so doing, gain valuable credits at NCEA Level 2.

Starts: February and June 2017 Intakes
Time: 4 x 1 week Block Courses
Location: Whenua Iti Outdoors

* Year 11 option Adventure Tourism Exploration
* Year 12/13 option Adventure Tourism Leadership

ESAFE MOLI

ADVENTURE TOURISM LEADERSHIP
Marlborough Boys College

Esafe didn't know what to expect when he first enrolled for the Adventure Leadership programme, but he's really glad he decided to give it a go. "Lots of things on the course were new to me. At first I was nervous but I've learnt heaps. I didn't have much outdoors experience, but now I've been camping for the first time." Esafe says the tutors were very kind and made everyone feel at ease. "We could all be ourselves around them."

For Esafe highlights of the programme have been swimming in waterfalls and just being in the outdoors trying new opportunities. He would like to join the police force in the future and the skills and experiences he's gaining now will be very valuable.

**TRADES
ACADEMY
TRAINING**

- Diploma in Adventure Tourism*
- Health Science (Paramedicine)
- Royal New Zealand Police College
- Diploma in Applied Fitness
- Bachelor in Sport and Recreation*
- New Zealand Armed Forces Training

*New Zealand Army, Navy or Air Force
Outdoor Physical Education Teacher
Paramedic, Search and Rescue Emergency Management*

*New Zealand Police Force
Outdoor Instructor
Adventure Tourism Guide*

* Available locally through NMIT

NB - these are indicative career paths only. The leadership, technical and social skills focused on as a part of this Trades Academy option can complement many other career pathways.

BUSINESS Interactions

You are a person full of energy who has an aptitude for outstanding communication. You are also reliable, well organised and helpful.

For you, it is essential to choose a profession where you can deal with as many people as possible. You recharge your batteries with the help of people contact.

This programme will give you the opportunity to explore tourism administration. You will be provided with professional industry training - learning about sales and customer service, presenting goods to customers as well as using planning and organisational skills and current technologies.

Starts: February 2017
Time: 9am to 2.45pm one day a week
Location: NMIT Marlborough and Nelson

JAIME HUNT

BUSINESS INTERACTIONS *Nelson College for Girls*

Jaime feels very lucky to have the opportunity to attend the Business Interactions programme. "It's a privilege to do this course. The small class size makes it easier to learn as you have more one-to-one time with the tutor. Our tutor is so nice and friendly and she always helps us out."

Jaime would like to work as a travel agent in the future and plans to study at NMIT when she leaves school. "It's been really helpful learning how to write business emails and letters, as well as developing my computer skills. That's going to be important in my future job."

Jamie is also grateful to her teachers at school who have been very supportive in helping her keep up to date with her other school subjects.

MANAAKI TĀPOI

Cultural Tourism

People travel from all around the world to learn more about the Māori culture of New Zealand. Stand tall and be proud of your whakapapa.

Take a journey through the cultural history of Te Tau Ihu o Te Waka a Maui (the Top of the South). Learn from expert tutors and kaumatua, visit and stay on marae across the region and interact with Maori business leaders of the region.

This programme is designed to be experiential and active whilst embedding and reinforcing pride in your cultural heritage. You will learn the importance of strong connections to your cultural heritage and the value these can bring to a wide range of career paths.

Starts: February and June 2017 intakes
Time: 4 x 1 week block courses
Location: Whenua Iti Outdoors

TAMA BAKER

MANAAKI TĀPOI
Marlborough Boys College

For Tama, the Manaaki Tapoi course was a once in a lifetime opportunity. He enjoyed it so much that he's already planning on enrolling in the second year of the programme in 2017. "I learnt more about the Maori culture, including all about my ancestors and the old places used for ceremonies and living. The highlights for me were meeting people from the marae where we stayed (some were my cousins!) and being in the outdoors."

Tama says the activities were really fun and interesting and the tutors were very friendly and approachable. "I learnt to do lots of things, such as weaving and cooking. It was great cooking kaimoana on an open fire – the food tasted like the seal!"

Tama isn't sure exactly what he wants to do in the future, but his plans may include training as a builder or becoming a Maori

TRADES ACADEMY TRAINING

Teacher Training

* Graduate PROFILE

AIDEN TRESTON

AVIATION — GRADUATE 2014
Marlborough Boys College

"I enjoyed Trades Academy because it was away from school and you get to learn in a different environment. The course allowed me to get some experience and get the chance to look at the aviation industry."

I really enjoyed working in the workshops. Trades opened up another world for me and it helped me to make up my mind about the sort of thing I wanted to do after I left school."

In 2016, Aiden won a scholarship from Wineworks Blenheim to support his training at NMIT. He currently works for Cuddon Engineering in Blenheim.

HEALTH & support services

Are you interested in your own and other people's health? Do you like to assist others in the community? Then Health and Support Services might be for you!

You will be working on the NMIT campus developing the skills needed to work in this industry, including how to communicate with people from other cultures, how to handle equipment and people safely and how to support people with disabilities. You will learn in an environment with state-of-the-art equipment. As part of this programme you will also visit health providers throughout the region, including hospitals, rest homes and other support services.

Give it a go and see if Health and Support Services is for you!

Starts: February 2017
Time: 9am to 2.45pm one day a week
Location: NMIT Nelson

ROSE VINSEN

HEALTH & SUPPORT SERVICES *Nelson College for Girls*

Rose's career goal is to work in the medical field, most probably as a nurse. Taking the Health and Support Services Trades programme has helped Rose decide that this is definitely the area that she wants to work in.

"I love learning in this class and having new things to do that I'm genuinely interested in." She says that visiting Nelson Hospital and watching a surgical operation has been a highlight of the year so far.

Rose is really enjoying the content of the course, learning about support services, patients' rights, physiology and anatomy and hygiene procedures. She says that the students in the programme have a very good relationship with the tutor, who is really helpful and approachable.

For Rose, managing her time to balance her studies between school and Trades hasn't been difficult.

Looking to the future, Rose intends to complete Year 13 at school and then return to NMIT to study towards a Bachelor of Nursing degree.

TRADES ACADEMY TRAINING

Employment within the industry

- › Certificate in Tertiary Study (Pathways) L4
- › Certificate in Community Support Services L4 at NMIT
- › Certificate in Foundation Nursing L4 at NMIT

UNIVERSITY STUDIES:

- › Bachelor of Nursing at NMIT

Medical Nursing
Forensics

Mental Health
Aged Care
Community Nursing

Paediatrics
Operating Theatre
Disability Sector

UNIFORMED services

If you want to pursue an active and exciting career path in the uniformed services but are not quite sure with which service, then this is an ideal opportunity to try them out.

Search and Rescue, or Coastguard, or Emergency Services, or Armed Services? They all offer varied and exciting career opportunities but they're also all really different. Experience a simulated Search and Rescue exercise, help rescue a marine vessel in trouble, find out what it is really like to be a Paramedic or a firefighter, or explore the options available within the Army, Navy and Air Force. Learning is practical, active and engaging – this is a fun way to take a big step towards achieving NCEA Level 2.

Starts: February and June 2017 Intakes
Time: 4 x 1 week Block Courses
Location: Whenua Iti Outdoors
