

Vocational Pathways

The Vocational Pathways have been developed through a partnership between government agencies, the industry training sector, secondary and tertiary educators, and industry and employer representatives.

Achieving credits towards Vocational Pathways means students are developing foundation skills and knowledge in areas that employers value. Students can work towards the Vocational Pathways by gaining credits from the achievement standards and unit standards recommended by the sectors. The Vocational Pathways will also make it easier for prospective employers and others to see when students have the strengths, abilities and qualities they are looking for.
